**Day two:** Dedicated to simplification of values, color, temperature, & mood. Both days students will be working from a live model. *You will be motivated to work hard, fast and bravely!*

**Draft Notice!** Our minimum requirement is ten students to hold this workshop. Should we have 16 paid in full participants at the workshop, your names will be gathered and one name will be drawn at random. The winning student will have their tuition returned. That is a one in sixteen chance of winning! We **must** have 16 participants to offer this scholarship! No refunds after drawing takes place.
